2013 Winter League

Match No. 1

Date: 10th March 2013.

Venue: Staplehurst Reservoir, Kent.

Conditions:

A cold cloudy day with periods of freezing rain & drizzle, variable wind, very cold for most just trying to stay warm was difficult. Reservoir was brimming full. Fields were flooded so parking only possible near gate.

Summary:

With a field of 15 competitors, a good but cold start to the 2013 winter series. Despite the conditions everyone caught. With the Carp not on the feed Roach was the main quarry on the pole or waggler on a mixture of baits from pellet, dead maggots to bread. The NW bank side seemed to produce the fish this time with quite a few netable Roach making up the bags. After Barry managed a small carp on the feeder from the deep middle section Tony followed suite with one slightly larger which with the Roach gave him the match. These were to only two carp caught. Richard managed a respectable all Roach catch. All in all I think everyone was please to get back to the cars to warm up!
