#### Match No. 1

Date: **13<sup>th</sup> January 2008.**

Venue: **Staplehurst Reservoir, Kent.**

Conditions: Windy, cloudy, but with no rain & with the odd sunny period, cold for those fishing the N.E. bank.

Summary: With the recent rains the match was moved from the Beult which was in full flood, it was touch & go having it held at the res. Don reported that on the Saturday the whole of the orchard was flooded, fortunately by morning this had subsided making it a wet & soggy walk through the orchard to full to brimming reservoir.

Competitor wise it was a lower than expected 'field' for this venue with just 10 keen soles!

Again it was a case of finding the Carp & Bream to make up the weights. Most concentrated on the feeder to begin with then switching to the pole or waggler to try for the Roach & Perch. Red Maggots seemed to be the most productive bait.

A disappointing day for over half the competitors not even getting a bite!
