Match No. 10

Date: 23rd August 2009.

Venue: Staplehurst Reservoir, Kent.

Conditions: A warm start to the morning. The day remained sunny & hot with a very light breeze developing later, this gave some comfort. The water level was well down & about 5 foot with 18" visibility. Fortunately the bank was dry so did not pose a problem for most.

Summary: Another good turn out. A distinct lack of bream this time, the normal productive carp pegs just did not happen, Barry, Pete & Tony really struggled without any bites on the feeder having to revert to the pole & waggler to even catch! However Ralf & Kevin were able to locate & catch carp to have reasonable bags. Don had a 14lb carp right on the whistle to give him a 3rd place! Despite the mixed fortunes for some we all enjoyed the sunny & warm day. Pellet & red maggot seemed to be the most productive bait.
