2011 Winter League

Match No. 11

Date: **20th November 2011.**

Venue: **Stallance Reservoir, Sutton Valance Kent. (Venue Change)**

Conditions: A venue change from the Hunton Stretch on the Beult that was still weeded over. Despite the frosty start it turned out to be a glorious day with constant sunshine, hot, with a cloudless sky & no wind whatsoever! Ideal for the pole & float fishing! The water level was down 3' but with 2' visibility.

Summary: With 17 competitors another excellent field. For most Carp was the quarry to aim for. Fortunately for Tony & Don they drew pegs either side of the waterfall end, this was the most productive. Don on the pole & Tony on the waggler, for the first hour or so just small Roach then the carp came on the feed, both bagged up Tony changing to feeder to tempt them on twin red maggot at one stage going fish for fish with Don. The odd carp came out elsewhere that helped boost the bags however a lot struggled with just Roach & Perch. The weather was unbelievable for mid November, warm with a cloudless sky that remained so all day & no wind!
