2009 Winter League.

Match No. 12

Date: 18th October 2009.

Venue: Stallance Reservoir, Sutton Valence, Kent. (Venue Change)

Conditions: With a clear cold night the first appearance of a light ground frost occurred. It turned out to be a beautiful cloudless start to the day that continued with a bit of light cloud cover coming later; with no wind it made conditions ideal for float & pole fishing. A very light breeze did develop but not until later in the day. Water level was normal.

Summary: (Venue change as the River Beult was still covered with duckweed.) Once again a good turn out. Unfortunately the old match Voodoo factor happened, weather it was the overnight cold conditions or the number of anglers fishing the water the Carp simply switched off! The catches were generally poor. Earlier in the week the venue fished very well with good bags of carp & roach however Kevin was able to locate the Roach & hold them with his newly formulated ground bait, fishing pole with maggot resulted in a fine 10lb+ bag of good size Roach to make him a clear winner. Second & third competitors were the only ones to actually land carp. Barry, Don & quite a few others concentrated on the feeder fishing pellet to no avail, they both had lost fish. Catch wise a disappointing for most however the beautiful fine day made up for it.

One LAS member did turn up to see if any of us had caught his rod & reel that had been pulled in by a fish earlier in the week; a lesson, if you're going to go to sleep always make sure that you've put your bait-runner on! Expensive otherwise!
