2007 Winter League.

Match No. 2

Date: 11th February 2007.

Venue: Staplehurst Reservoir, Kent.

Conditions: Windy, cloudy, with the odd heavy rain showers but with some sunny periods, a day for brollies however not that cold for those fishing the N.E. bank.

Summary: With the recent rains it was a wet & soggy walk through the orchard to full to brimming reservoir. Competitor wise it was a lower that expected 'field' for this venue. Again it was a case of finding the Carp & Bream to make up the weights. Most concentrated on the feeder to begin with then switching to the pole or waggler to try for the Roach & Perch. Maggots seemed to be the most productive bait. A disappointing day for over half the competitors with some not even getting a bite & frustratingly the odd good fish lost!
