Match No. 2

Date: **10th February 2008.**

Venue: **River Medway, Watlingbury, Kent.**

Conditions: The day began very cold with a severe frost. Once the match started the weather brightened up turning into a warm sunny day & a light breeze. The water level was slightly coloured with flow at + normal rate.

Summary: A much improved number of competitors, a good turn out, the recent warm & sunny days might have been a factor.
Again not the easiest of matches with some struggling to even get a bite, no big catches of Bream or anything really. The fish didn't appear to be there. Tony & Kevin amused themselves catching a few Jack Pike, Kevin ending up with a rather nice 19lb 4ozs specimen!
Competitors swapping between the pole, whip, waggler & feeder trying to locate & tempt the fish, in the middle, far bank or under their feet with Maggot, lob, hemp, corn, bread & tares they were all tried. Most of the bags were made up with odd Roach, Perch & Skimmer.
It turned out to be a glorious warm sunny day, still a lot better to be fishing than working!
