2007 Winter League.

Match No. 4

Date: 1st April 2007.

Venue: Manor Farm Reservoir, Kent.

Conditions: Very windy, cold & cloudy, turning sunny about midday. With all the recent rain of previous weeks water level was still full but fairly clear.

Summary: Disappointing results really, would have expected better weights, none of the Bream or Carp showed although a couple of competitors were broken on the pole. Most concentrated on the feeder & quiver then switching to the pole to try for the Roach & Rudd. Again maggots seemed to be the most productive bait. Barry had a nice Perch. He & Tony Burton were fortunate in having the only sheltered swims on the water, all the others had to contend with the very cold strong wind. There were quite a number of Jack Pike present being a nuisance & attacking nets! Special thanks goes to our Adrian for staying at the venue all Saturday night (no he didn't fish it either!) to patrol for poachers & remind any forgetful members that the water was closed. It was good to see Jason, Alan & John Carter showing the club support by popping round for a visit & chat with the competitors.
