### 2010 Winter League.

#### Match No. 4

Date: 11<sup>th</sup> April 2010.

Venue: Toke Farm Reservoir, Kent.

Conditions: Despite the warm & sunny weather over the past two days it started cloudy, very cold with a NE wind. This increased during the day making it very difficult for most competitors. The sun came out mid morning & remained but with a bitter cold wind increasing. Water level was high with 2' visibility.

Summary: Most competitors had to scale right down in hook size to get any bites at all, those fishing the normally productive West end of the Reservoir were disappointed; they bore the brunt of the ever changing cold biting wind which affected the catches, Alex losing at least 4 bream on the light tackle; for a lot the feeder just did not produce the Bream or Tench. Despite the wind the pole seemed to be the order of the day with Roach being caught 'on the drop'. Bags consisted of Roach, Rudd, Gudgeon & the odd Bream, very few Perch. A variety of baits caught, Pellet, Maggot, Caster & chopped worm. A day some wished to forget!
