2012 Summer League

Match No. 5

Date: 1st July 2012.

Venue: Staplehurst Reservoir, Kent.

Conditions:

A very unsettled day, mainly cloudy with the odd sunny periods but a strong variable cold SW winds also a few heavy showers that brought out the brollies! Water level was normal but with low visibility.

Summary:

Another strange day condition wise that did affect the fishing. During the week a lot of carp had been coming off the top, being a 'match day' it was not to be; Kevin H pinned his hopes on this happening & concentrated on floater fishing with bread, maggots & dog biscuit, unfortunately to no avail with just one lost fish & the odd roach, they were there but not in any numbers or taking. The large bags of carp didn't happen with just the odd one or two making up the weights however Don did have an excellent bag of Roach on the pole using a variety of baits. A number of fish were lost when competitors were on the pole going for the Roach with light 'bottoms'.

The feeder using maggot, corn & pellet seemed to come out the most productive. Despite all the old reed rubbish affecting his swim Colin M managed a worthy third. Barry's winning bag contained two carp, a bream & a few roach. Distinct lack of bream or skimmers caught.

A strange disappointing day for most, the venue did not fish as well as we'd all hoped, the day was crowned by a 'downpour' just as we were loading the cars!
