2013 Summer League

Match No. 5

Date: 7th July 2013.

Venue: Staplehurst Reservoir, Kent.

Conditions:

A sunny, hot, cloudless day with a light Easterly wind. Reservoir level was about 3' down & but with 2' visibility.

Summary:

A nice warm sunny day with the Carp moving around just under the surface, frustrating for those out of the 'killing zone' so to speak, heavy waggler fished out in the middle with pellet accounted for a few. The feeder wasn't so productive this time; again the pole was a favourite weapon but no large bags of roach this time, just the odd Perch, Skimmer, Roach, Rudd & Gudgeon to make up the bags, the main quarry being Carp; a disappointing day for those who struggled to locate or lost fish.
