### 2011 Summer League

#### Match No. 6

Date: **24<sup>th</sup> July 2011.**

Venue: **Linton Park Lake, Kent.**

#### Conditions:

A cloudy start that turned into a hot sunny day; a very cold windy morning in the wooded area but on the point in the Sun, very warm! Level was normal with 1' visibility.

#### Summary:

A cool start for most with the Bream being the main target at this venue, drawing a good swim was a big advantage. The most productive method was undoubtedly the feeder with maggots or pellet. Those who concentrated on the Roach & skimmers chose the pole fished with hemp, tares, punched bread or corn. Barry's change of tactics (feeder with pellet) mid morning proved successful with a good bag of Bream, Ralf in the 'Oaks' swim also located a few Bream to take second place. The wooded side, whilst successful fishing wise was quite windy & very cold until the sun came round late morning. Again there was a lack of Tench.
