Match No. 8

Date: 25th July 2010.

Venue: Toke Farm Reservoir, Linton, Kent.

Conditions:

Warm but cloudy start with drizzle for the first hour. A breeze got up to cool things, later the sun came out to turn into a very hot & humid day. Water level about 2' down with 18" visibility.

Summary:

Again a good field, however only a few were able to contact & hold the Bream & Tench in any numbers; once again Ralf on the feeder showed us the way with a good mixed bag of Bream & Tench, he kept changing baits to keep them interested, quite a few tried this & it worked, Tony Burton even used luncheon meat to tempt some fine Roach. Majority used maggots but everything from pellet to worms caught. A mixture of pole, waggler & feeder were the methods.

Most bags were made up of Skimmers, Roach, small Perch & the odd Tench.

There were quite a number of lost fish that may have effected a few positions.

Special thanks goes to Don Brown for all the hard work he put into preparing all the swims for this comp.

Great job! All in all a good day for most.
