Match No. 8

Date: 26th July 2009.

Venue: Toke Farm Reservoir, Linton

Conditions: A cloudy but warm start. The day remained sunny & warm with a high cloud base. The slight breeze first thing developed into a strong wind that made it difficult for the pole anglers. The water level was low about 12" below normal & reasonably clear with 2' visibility.

Summary: With another good field hopes were up for some good results, again it was the Southern end swims (1, 2 & 15) that would feature in the results with the bigger Bream & Tench taken there. Ralf finished with a very good catch of over 41 lbs. caught on pellet with the feeder. Barry worked hard at the opposite end of the reservoir to earn a creditable 3rd place with a catch of mainly small silver fish. No big catches of Roach or any decent Perch this time, most bags were made up off Skimmers, Perch, Roach, Rudd, small Tench with the odd Bream. Most anglers changed from the pole once the wind got up making it almost impossible, Alex didn't even try with expensive memories of two broken poles earlier in the week; most favoured the feeder rod with a variety of baits, maggots produced mainly skimmers & other small silvers, whilst various forms of the pellet found the better fish, worm & corn were also used with mixed results. An enjoyable day for the majority despite the strong wind.
