Match No. 9

Date: **8th August 2010.**

Venue: **Staplehurst Reservoir, Kent.**

Conditions:

Warm but cloudy start with hardly any breeze. Rain threatened but never came. There was odd sunny period during the day. Water level about 8' down with 18" visibility.

Summary:

A few regulars missing due to holidays but still a good turnout. With the level being well down it was a case of fishing on the steep bank, fortunately it was dry & safe. With this venue the prime target was Carp or Bream, find a shoal & your in with a chance. There were, as always at this venue, quite a few lost fish, competitors having a job to hold the carp on light gear & small hooks. Kevin 'White Hunter' was able to win with a resourceful performance finding the fish at different levels, baits & methods quite a number from the surface. Others struggled to locate the fish, Alex for one having a practically poor day. A case of sticking with the feeder or onto the pole for the Roach, Jim managed a good bag of fine ones. The Bream we noticeable by their absence, only one of any size caught. Best catch for Barry was a rod & reel, been in the water some time!
